

# Eliminate Paper-Based SBHC Enrollments

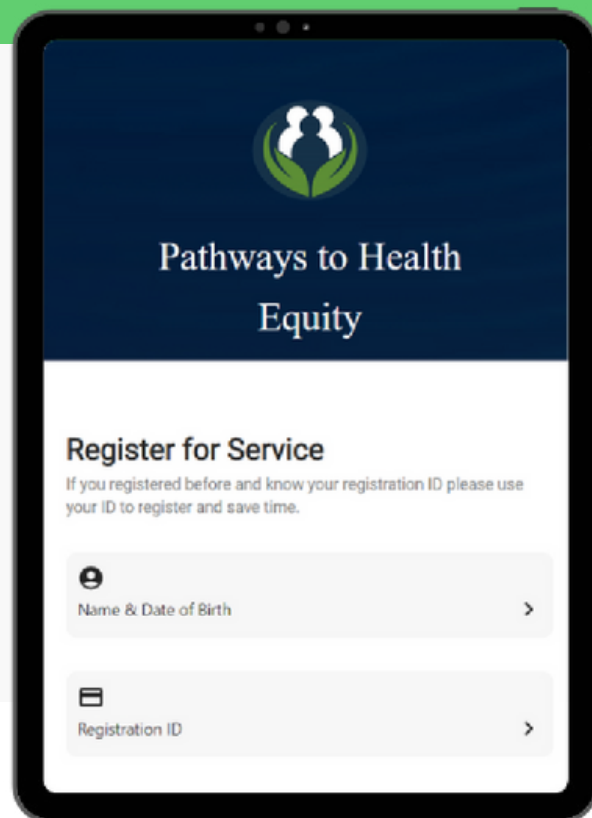

Let us help transform your enrollment process to drive utilization & increase funding!

Purpose-built for School Based Health Centers and trusted by Local Health Departments around the country. WellCheck's software is transforming how students, families and residents in rural and under-served communities are accessing healthcare.

Our web-based software digitally collects all required documentation, consent forms, insurance information, and medical history in the most efficient way possible.

Digital SBHC enrollments are deployed via weblinks and QR codes so are accessible on any device. The SBHC enrollments are easy, simple to navigate, and can be presented in multiple languages. Digital enrollments are collected in real-time and SBHC administrators have a dashboard for 24-7 access to all enrollment information.

Secure & HIPAA-compliant   Supports Multiple Languages   Easy to Implement   Interoperable with EHRs

## DIGITAL ENROLLMENT

- Accept Enrollments 24-7
- Digital Consent Form Management
- Digital Copies of Insurance Cards

**School Based Health Center Consent for Treatment**

Student Name: Dakota Test

Student Address: Test

Student Date of Birth: 05/18/2023

Name of Parent or Guardian: Darlene Mitchell

I give permission for my child, Dakota Test, to enroll in the School Based Health Center program. I consent to his/her receiving services which may include complete physical examinations, immunizations, treatment for chronic and acute health problems, health screenings, limited laboratory, and diagnostic tests (including COVID-19, flu, RSV, and strep), administration/supervision of medications, health education, case management, and/or referral to mental health and social services. I give permission for School Based Health Center (SBHC) professionals and school Health Services staff to share information or records as needed to provide appropriate services to my child through the SBHC and support my child's success in school.

- The parent/guardian may or may not be present at the time services are provided but will be notified by phone or in writing when a child receives services in the SBHC. I understand that at this time, Maryland law does not require parental consent or notification for the following services: treatment or advice about substance use, alcoholism, sexually transmitted infections, pregnancy or contraception to minors under 18 years of age, and mental health services to minors aged 16 years or older.
- All SBHC records are confidential and only the SBHC staff and providers will have access to a child's SBHC records and information, unless the parent/guardian gives written consent, or the minor patient gives written consent, in the event the minor is receiving treatment for which the minor has the authority to consent.
- Services at the SBHC will be provided by staff employed or contracted with St. Mary's County Health Department.
- Information about your child may be shared with the child's medical provider and school medical staff if deemed necessary by the SBHC provider.
- If your child has health insurance through an insurance company that participates with St. Mary's County Health Department, the insurance company will be billed for services provided in the SBHC and the insurance company may be provided required information about the child's health status or other information necessary to process claims.
- If your child has health insurance through an insurance company that does not participate with St. Mary's County or is uninsured, you will be billed for services given in the SBHC based on a sliding scale.
- If your child does not have health insurance please indicate this on your enrollment form and we can connect you with St. Mary's County Health Department staff to assist in identifying options for coverage.
- I authorize the payment of medical benefits to St. Mary's County Health Department for services rendered in the SBHC.
- All enrolled children will be treated regardless of the family's ability to pay or insurance status.

I understand the description of services and policies of the SBHC as stated above and give permission for my child to enroll and receive services in the SBHC. Authorization is only valid for the school year during which this consent was signed and will need to be renewed each school year. This includes consent for my child to be signed out of school, escorted to the School Based Health Center and back to school by SBHC staff. I understand I may revoke my consent for participation in the School Based Health Center Program at any time by submitting the request in writing.
